We are happy to provide the information to help you make a decision on the tools you need or want.

Prices do not include shipping.
Pictures are not to scale. Stock photos may be used. Colorations may vary from pictures.

Disclaimer  Metalworking is inherently dangerous. Knowledge of materials, equipment, and procedures are the responsibility of the user. We assume no responsibility for use of the products we sell. Improper use of tools and equipment are a sure way for accidents to happen. We strongly recommend formal training and study in metalwork prior to use of our products.

NC Residents include NC sales tax.

All hammers, punches, hot/cold cutters, and flatters complete with handles unless noted. Many Hammers require final finishing of face, peen and handle.

The Double Horned anvils are made entirely from high grade steel for maximum durability. The Work surface of each anvil is precision ground and hardened using a special Peddinghaus process which results in a lively work surface with unmatched precision and quality. Peddinghaus steel anvils are excellent for Blacksmithing, iron work, and various industrial applications. Peddinghaus anvils give you quality and craftsmanship, with the dependability you expect.

FEATURES INCLUDE:
* Drop Forged Steel Construction
* Milled, Hardened Work Surface
* Generous Round Horn For Bending and Shaping
* Wide Stable Base to Absorb Force
* Hardie Hole For Various Tools

NOT CAST!!

These have a very thick forged tool steel top/face, making it a strong product for those not ready to purchase a Peddinghaus. Drop forged in Turkey. At a Competitive Price!
For centuries anvils have been one of the basic and the most important blacksmith’s tools. Over the years, their shape and treatment have changed, as well as the material from which they were produced. Knowledge and experience of the best Polish and foreign blacksmiths helped us to create our anvils, which characterize by ideal proportions, unique shape and excellent technical parameters. These anvils are manufactured entirely from specially-chosen alloy steel. We do not weld the face and the leg of the anvil together. Instead, we cast the whole anvil. Every casting is always checked for possible casting defects such as cracks, shrink cavities, etc. After passing quality control, our castings are heat treated and precisely machined. The face of the anvil is hardened by quenching, and its edges are tempered so that it does not crumble at work. After heat treatment the working surface is also ground.

### Blowers

#### 2" Small Blower
- All aluminum body
- Inlet: 2" inside diameter
- Internal pressure: 490 pascals (pa)
- Millimeter H20 (mmAq): 49.967
- 110 volt 150 watt 1.0 amp
- 3600 RPM
- Approx. 75 CFM
- #blower2 $100.00

#### 2.5" Forge Blower
- All aluminum body
- Inlet: 2½" inside diameter
- Internal pressure: 680 pascals (pa)
- Millimeter H20 (mmAq): 69.3426
- 110 volt 260 watt 1.6 amp
- 3600 RPM
- Approx. 125 CFM
- #blower 2.5 $125.00

#### 3" Forge Blower
- Perfect for a single coal or coke forge
- All aluminum body
- Inlet: 3" inside diameter
- Internal pressure: 780 pascals (pa)
- Millimeter H20 (mmAq): 79.54
- 110 volt 370 watt 2.0 amp
- 3600 RPM
- Approx. 180 CFM
- #blower3 $175.00

#### 4" Dual Forge Blower
- All aluminum body
- Inlet: 4" inside diameter
- Internal pressure: 885 pascals (pa)
- Millimeter H20 (mmAq): 90.2473
- 110 volt 550 watt 2.5 amp
- 3600 RPM
- Approx. 350 CFM
- #blower4 $250.00

### ON / Off Switch for Blowers
- 15Amp 125V
- 3 prong - Grounded Switch Tap
- On/Off Button
- Ivory
- $7.00 each.
  - 2 or more $6.50 each

### Bader Bench Grinders
- Model B-3 with heavy duty arm and 8" x 2" serrated contact wheel
- Great for knife-making
- Single speed 2 HP Baldor motor
- 1 PH - 110 volt - 30 amp breaker needed
- 3450 RPM Uses 2" x 72" belt
- HD arm w/ 8" x 2", 70 Duro serrated contact wheel
- ***Combination Tip - 5 x 2 wheel and platen w/ workrest ***
- 3" and 6" drive pulleys - for belts speeds of 2800 or 5800 SFPM
- Many options available
- PLEASE CALL or email for a quote on a machine just as you want it

We are dealers for Bader, Burr King and Kalamazoo.
Contact us for Pricing and More Information
** Constructed of thick 12 gauge (.109) hot rolled premium steel
** Heavy Duty welded two piece clamshell construction.
** Full 3” heat chamber opening. Heat shield included
** Needle valve fuel adjustment insures precise distribution of fuel flow.
** Unique slanted base for top mounted door units allows easy and convenient access to heat chamber.
** Touch and durable powder coated black and silver “hammered metal” finish.
** Fully assembled, ready to use UL listed regulator and pressure gauge.
** Convenient spark igniter assembly.
** Heavy cast iron burners permanently welded to housing top.
** Quick and easy replacement of lining and hearth brick material.
** Single Burner Models and Accessories available. Please Inquire

Blacksmith Model 50000 13 x 8 1/2 x 3 $770.00
Double Burner w/ Side Ports and Solid Front Door

**The Master Bladesmith**  
Advanced Studies in Steel  
by Jim Hrisoulas  
This advanced study of steel reveals forging secrets that for centuries have been protected by guilds. Never-before-seen instructions, diagrams and photos explain the tricks behind using Japanese mokume gane, differential heat treating, power hammers, and other techniques to make kukris, wavy blades, spears and swords that bear the master’s mark.

Skills of a Blacksmith Vol 1
by Mark Aspery

"Mastering the Fundamentals of Blacksmithing"
Written and published by Mark Aspery
Most of this volume relates to tooling. Making, modifying and/or the preparation of punches, hammers, drifts, wizards and more for use by the master blacksmith. Extremely easy to read and understand, even mathematical calculations are in terms that are easily understood.
1100 images and over 300 (8.5” x 11”) pages
#883   $59.00

Skills of a Blacksmith, Vol. 2
by Mark Aspery
"Mastering the Fundamentals of Leaf-Work"
Much like his classes tooling comes first. Mark begins with a leafing hammer and takes you through the necessary tools to form many types of leaves. Continue on the journey from Roses to Ginko and many more. A greater understanding of nature and iron is within these pages.
200 pages   #279: $59.00

Skills of a Blacksmith VOL 3
by Mark Aspery
"Mastering the Fundamentals of Joinery"
This volume guides the blacksmith in developing the technical skills and understanding necessary for forging traditional joints. This book takes you from developing the required tooling through to the completed joinery projects.
1600+ Images and 368 pages.
# Aspery3   $59.00

Early American Wrought Iron by Albert Sonn
The Ultimate Old House Coffee Table Book
The Bible of Colonial Hardware
Over 3000 very fine drawings and sketches of different pieces. Includes many histories of the buildings the pieces were on. Albert Sonn, draftsman and artist, spent 8 years traveling and sketching items for this book
Product Specifications
3000+ sketches of wrought iron hardware   Almost 2” thick
Full 8.5” x 11” semi-gloss pages
Totally redone with sharper images in 2007
#882   $120.00

The Backyard Blacksmith by Lorelei Sims
The Backyard Blacksmith shows you how -- with some patience and a working knowledge of metals, basic tools, and techniques -- blacksmithing can be easy to learn, and a rewarding hobby. Through instructions and illustrations, readers will learn to make simple tools and useful items, such as nails, hinges, and handles, and also an interesting mix of artful projects, such as letter openers, door knockers and botanical ornaments.
#880       $25.00
Hydraulic Forging Press for the Blacksmith by Randy McDaniels
The hydraulic forging press is becoming increasingly important to the forging shop. This relatively small machine, which is often hand made, allows smiths to do many of the same operations as a power hammer while adding more control and expanding what one can do with hot metal.

200 pages, Full Color, Hardcover, 8.75” x 11.25” #book-press $45.00

Plain and Ornamental Forging By: Ernst Schwartzkapf
Here, available once more in reprint, is one of the most enlightening books written on the blacksmith’s craft. Called a “bible” of the trade by many because of its wonderful “teaching quality,” it has been used by generations of blacksmiths as the seminal text on forging. Designed primarily to help the beginner in learning both the theory and practice of forge work.

Paperback 281 pages 2nd reprint in 2000 original book from 1930 #872 $22.00

Build Your Own Hydraulic Forging Press
Jim Batson
This book and drawings are designed to help you build your own 24 ton Hydraulic Forging Press. A two horsepower 220 volt single phase motor running at 1725 RPM powers a 5.5 gallon per minute “Hi-Lo” hydraulic pump. Ram force of 24 tons is applied by a 5” diameter double acting hydraulic cylinder at 2500 psi pressure. The movement of the ram die is controlled by a 4 way, 3 position hydraulic valve. The length of the ram stroke is 8”. The maximum speed of the ram is 1.1 inches per second. The ram speed can be doubled by using a 5 horsepower electric motor running at 3600 RPM. A section is included which will enable you to alter a Log Splitter for use as a Forging Press

Soft cover copyright 1994
Pages: 46 Illustrations: 35
#batson press $30.00

Professional Smithing By: Donald Streeter
Included are detailed descriptions of work space layout, specialized tools and techniques, white-smithing, toolmaking, and lock-smithing.

Mr. Streeter demonstrates not only how things are done, but how they can best be done by others.

There is special emphasis on the crafting of early high-quality, hand forged kitchen utensils, fireplace tools, locks, keys, and decorative ironware: hinges, hasps, latches, bolts, hooks, springs, and more.

Paperback 144 pages, 257 illustrations. 2nd edition
#871 $18.00
Forging and Finishing the Brut De Forge Knife
by Joe Keeslar, Master Bladesmith

The “Brut De Forge” Two disc set is a step by step tutorial with the techniques used to forge, heat treat, and finish a knife from a worn out file and give it new life and function A very Simple and straight forward procedure for making a knife.

#dvd-brut $50.00

Forge Welding with Mark Aspery
Forge welding is an important part of the craft of blacksmithing and can be learned by beginners with this video. Learn the principles for forge welding in a coal forge with and without flux. Enjoy some forge welding projects to get started with.

80 minutes, 7 modules and 25 lessons
#dvd-weld $35.00

Forging a Bearded Viking Axe
By James Austin
How to use traditional blacksmithing skills and hand tools to forge an axe with the strength, keen edge and beauty of pieces produced by the Vikings over a thousand years ago.

51 Minutes
#BEARDEDAXE $35.00

Forging Damascus
How to Create Pattern-Welded Blades with Jim Hrisoulas
This two-disc DVD takes you step by step through the creation of a beautiful 10-inch Damascus blade.

- #897 1/4 x 1-1/4 Qty. 100 $25.00
- #rivet1/4x1.5 1/4 x 1-1/2 Qty. 100 $25.00

- #894 5/16 x 3/4 Qty 100 $25.00
- #893 5/16 x 1" Qty 100 $25.00

- #899 3/8 x 1 Qty. 25 $12.50

Square Head Sockets

Designed specifically to work with impact tools, featuring increased strength and torque, easier access to tight areas and reduced wear. Just remember that if you drive a screw or bolt in to far there is no solution other than filling the hole. Over tightening can cause bolt heads to snap off. Final tightening should be done by hand

- #socket5/16" For 3/16" square head bolts and nuts $10.00
- #socket3/8" For 1/4" square head bolts and nuts $10.00
- #socket7/16" For some 1/4" square head bolts $10.00
- #socket1/2" For our pyramid head lags and 5/16" bolts and nuts $12.50
- #socket9/16" For for most 3/8" square bolts $12.50
- #socket3/4" For most 1/2" square head bolts $12.50
- #socketset All 6 sockets $60.00

Gator Grip® and King Gator®

Universal Socket

Pyramid Head and square head lag bolt (screw) installer.

- Gatorgrip $14.00
- Kinggator $22.00
- Gator set $32.00

Pyramid Head Lag Bolts

Pyramid Head Lag Bolts (Black Oxide)

- #637 1/4 x 1" Qty of 100 $25.00
- #638 1/4 x 1-1/2" Qty of 100 $25.00
- #687 1/4 x 2" Qty of 100 $25.00

Steel Black Screws

- #630 6 x 5/8 Qty of 100 $20.00
- #981pyr 7 x 3/4 Qty of 100 $20.00
- 8x3/4pyr 8 x 3/4 Qty of 100 $20.00
- #632 8 x 1 Qty of 100 $20.00
- #633 8 x 1-1/2 Qty of 100 $25.00
- #289 8 x 2 Qty of 100 $25.00

Solid Brass Screws

- #634 6 x 5/8 Qty of 100 $25.00
- #635 7 x 3/4 Qty of 100 $25.00
- #636 8 x 1 Qty of 100 $25.00

Pyramid Head Rivets

These rivets give a perfect old look. Have a forged look without the price of being forged. Same 1/2" head as Pyramid Head Lag Bolts.

- #639 1/4 x 1.5 Qty of 100 $20.00

Rivets - Round / Button Head

Mild steel solid rivets with plain steel finish

- #896 1/8 x 1/2 Qty. 100 $15.00
- #885 3/16 x 3/8 Qty. 100 $10.00
- #886 3/16 x 1/2 Qty. 100 $12.00

#### Machine Screws - Black Oxide

- **Pyramid Head**
  - Machine Screws - Black Oxide
  - These are similar to our pyramid head wood screws except they will use a nut instead of requiring the thread in wood for retention.
  - 8-32 american machine threads 2" of threading all the way to the head
  - Single slot for flat bit screwdriver approx. 5/16" semi-round head

- **Square Drive Wood screws**
  - Black
  - Don’t chew up wood screw heads anymore.
  - Flat and Phillips head screws have a tendency to get chewed up during installation.
  - Square drive is the answer.
  - Power drive bit available
  - Uses a # 3 Bit
  - Sold in Packs of 100

- **Square Nuts**
  - Black Oxide
